

SURVEY FOR SETTING UP OF SMALL SCALE INDUSTRIES IN GULBARGA DISTRICT.

179. Sri PRABHAKAR TELKAR (Kalgi).—

Will the Minister for Industries and Parliamentary Affairs be pleased to state :—

(a) whether the Government have taken any Talukwise survey in Gulbaraga District for setting up big and small scale industries ;

(b) if so, whether the survey has revealed the type of industries that would be established in Gulbarga District (Talukwise) ;

(c) the financial outlay required to establish these industries ;

(d) whether any feasibility report in respect of any industry in this District has been received ;

(e) if so, the types of such industries ?

†Sri S. M. KRISHNA.—For the first question ‘ whether Govern-
tary Affairs).—

(a) No.

(b) Does sot arise.

(c) Does not arise.

(d) Yes.

(e) Setting up a Cement Plan at Chitapur.

Sri PRABHAKAR TELKAR.—For Question whether the Government have taken Taluk-wise survey for setting up big industries, you have stated ‘No’. Will it not be possible for Government to conduct survey in the Gulbarga District which is a backward District, so that industries could be set up there.

Sri S. M. KRISHNA.—For the first question ‘ whether Govern-
ment have taken any Talukwise Survey in Gulbarga District, it is
stated ‘no.’ Sometime ago we have conducted a survey on a
Statewide basis and these reports are with the Government and
such of the entrepreneurs who are willing to start small scale
industries in Gulbarga District, will certainly be given all encourage-
ment. The House is aware that intensive survey of Mysore,
Hassan, Bijapur and Mandya has been conducted and the Govern-
ment would like to conduct intensive survey for some more
districts. When the Government takes a decision for conducting
intensive survey, Gulbarga will certainly get a pride of place.

Sri PRABHAKAR TELKAR.—For question (e) it is stated that feasibility report for setting up a Cement Plant at Chitapur has been received. I want to know whether any action has been taken in this regard ?

Sri S. M. KRISHNA.—Yes. We have recommended to the Union Government that a Cement Plant with 4 Lakh Tonne capacity be set up at Chitapur in Gulbarga District because there is a big deposit of lime stone and it is economically cheap to set up a Cement Factory at Chitapur. With these recommendations we have made up a case and the Government of India is seriously considering issue of a letter of intent to set up a Cement Factory in Chitapur. The State Government have recommended the application of an industrialist on 8th February 1974 and we are hoping that a license will be issued for setting up the factory in Chitapur.

Sri PRABHAKAR TELKAR.—I want to know whether action has been taken on the staff who have delayed the matter ?

Sri S. M. KRISHNA.—I am in a position to answer that question as to who surveyed the Gulbarga District. If there is any lapse, action will be taken as per report.

If you permit me, I will make a brief statement. As a matter of fact, this file was initiated at my instance. The department has slept over. They did not know that money was available for the purchase of this furniture and other things. When I went to Delhi once in December 1972, I found sufficient money was available and our department had not utilised it. When I came back on 5th December 1972, I sent a minute as to why this money
